Description of Proposed Work

Requests permission to **open-cut** County Road #: _____

Description of Work: _____

At the Following Location: _____

Proposed Work Schedule: Start Date: _____ End Date: _____

Hours of Operation: Start Time: _____ End Time: _____

One half of the traveled portion of the road must be kept open at all times to allow passage of fire and police vehicles, etc.

The Applicant agrees to the following conditions:

1. To hold the County and its agents harmless and free from all damages or suits arising from said excavation or work connected with same.
2. That all work from initial opening until final closing will be completed between the hours of 9:00 a.m. to 4:00 p.m. Local time Monday to Friday (except holidays) and that no work will be held over the weekend or holidays, unless otherwise agreed to by the Director / County Engineer.
3. To include with the application a sketch (hand drawn acceptable) of the proposed work zone to detail all significant features in the immediate area, as may be required by the County of Northumberland.

Permission to Open-Cut

Permit #: _____

County of Northumberland
555 Courthouse Road, Cobourg, Ontario K9A 5J6
Phone: (905) 372-3329 Fax: (905) 372-1696
Email: transportationdept@northumberlandcounty.ca

4. To provide Traffic Control Plan, as applicable.
5. To provide copies of locates.
6. To provide a copy of insurance, naming the Corporation of the County of Northumberland as an additional insured and provide proof of liability insurance in the minimum amount of \$ 5,000,000.
7. Obtain permission from private property owners, if necessary to access their property.
8. To abide by all rules and regulations of the various labour acts affecting trenching, shoring etc..
9. To erect and maintain proper barricades and to light same when necessary to protect the traveling public.
10. Excavation In Road Surface Or Road Shoulders
 - a) Trench backfill up to a depth of 600 mm below road surface to be clean native material previously removed from the excavation, of a size not over 80 mm. If in the opinion of the County Engineer or his representative, the native material is not acceptable, the backfill will be pit run gravel or sand cushion up to depth of 300 mm below road surface.
 - b) Granular backfill material to meet the current O.P.S. specifications for Granular "A" or Granular "B" Type 1 as the case may be.
 - c) All backfill material to be place in lifts not to exceed 150 mm in depth and be thoroughly compacted with an approved type mechanical vibrating compactor.
 - d) In shoulders, the top 300 or 600 mm as the case may be, to be Granular "A".
 - e) In the roadway traveled portion the top 250mm or 500mm of backfill to be Granular A".
 - f) The top 50 mm in the roadway shall be cold mix asphalt compacted in place and left slightly higher than the existing roadway. The cold mix shall be maintained by the applicant for a period of not less than three (3) months. After the minimum three (3) month period the cold mix is be removed and hot mix patch is to be applied in accordance with O.P.S. specification 310. The depth of asphalt is to match existing. Pavement adjacent to the width of 450 mm on each side. A minimum of 40 mm of asphalt will be place in the trench and compacted level with the milled surfaces. An approved geogrid reinforcement will be placed across the joint on each side of the trench for a minimum width of 900 mm and the final lift of asphalt will be placed.
 - g) Applicant shall submit a security deposit in the amount of \$ 1,000.00 which will be released after a one (1) year maintenance period upon request by applicant.
